RESEARCH & TECHNICAL PROJECTS

fMRI Cognitive Distraction Analysis

2025 -- Present

- Analyzed functional Magnetic Resonance Imaging (fMRI) datasets to study neural activation patterns and cognitive distraction mechanisms under varying stimuli.

EEG Signal Processing & Brain-Computer Interface Study

2025 -- Present

- Investigated Electroencephalogram (EEG) signal processing techniques to analyze brainwave responses and explore neurological monitoring concepts.

ISAAP Seed Sowing Robot (CBSE Regional Science Exhibition)

2023 -- 2024

- Secured Team Rank 1 at St. Soldiers School, Panchkula for the Seed Sowing Robot (ISAAP) and selected for Nationals; engineered an autonomous agricultural robot for seed depth and spacing optimization.

Cerebral Palsy Mobile Game & Sensor Ball

2024 -- Present

- Developed a mobile game app paired with a custom squeeze-sensor ball to transform repetitive physical therapy into engaging play for children with cerebral palsy; successfully tested at Divyang Punarvas and Swasthya Kendra.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **President, STEM and Robotics Club**, Delhi Public School (2026--27).
